FIRST YEAR CLASS ENJOYS A PARTY

A Normal Function That Was Much Enjoyed by Those Participating.

The first year class of the normal, chartered by Miss Edith Salinas, Spanish teacher of that institution, was entertained last Friday evening at the home of Miss Leona Jones three miles and a half southeast of town. Games and music furnished entertainment for the evening which passed only too quickly. A short time before departing cake and ice cream were served to all present. Those present were the following: Irene Stumm, Marjorie Walker, Marie Blount, Dorothy Johnston, Alice Knight, Lela Spangler, Norma Bloys, Neva Seal, Maudie Stacey, Ada Rosenburger, Edna Chilson, Elizabeth McKee, Myrtle Tucker, Gladys Murchison, Nellie Meyers, Clara Duncan, Helen Haulot, Rita Heron, Lela Spangler, Mike Rouse, Kenneth McLennen, Robert Pritchard, Leonard Hillers, Grant Laney, Robert McCoy, Lawrence McManis, Glen Standage, Edgar Springer, Lionel Castile, Walter Butts.

A CARD

This is to certify that Foley's Honey and Tar Compound does not contain any opiates, any habit forming drugs, or any ingredients that could possibly harm its users. On the contrary, its great healing and soothing qualities make it a real remedy for coughs, colds and irritations of the throat, chest and lungs. The genuine is in a yellow package. Ask for Foley's Honey and Tar Compound and accept no substitute. Elvey & Hulett.

A. D. C. BANQUET.

The Athenian Debating club, composed of about sixteen young men of the normal held its annual banquet in the dining hall Saturday night. Upon a suggestion, one that has been carried out for many years past, each gentleman attending was accompanied by a young lady. Each member of the club as well as the young ladies was called upon for a short speech during the course of the evening which they promptly delivered although some were inclined to cut them rather short. Toasting and eating was indulged in until a late hour when the gathering broke up not to assemble again until next year when the club is reorganized.

CLASS PLAY.

The annual class play given by the graduating senior class of the normal will take place tomorrow evening in the auditorium. The cast has been chosen from the most proficient along that line in the school, so that there is no doubt but what it will come up

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for a free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

MESA

HAS A FINE HERD OF ANGORA GOATS

Starting With a Small Number, Mr. Bryan Owns Over Six Thousand Fleece Bearing Animals.

R. C. Bryan, who is stopping with his family in town for a few days, is satisfied that there is money in Angora goats. A very few years ago Mr. Bryan engaged in the business on a small scale and reports that he now has over six thousand head. He has been ranging the goats in the Dripping Springs district and has had plenty of feed for them at all times. The goats grow fat on the shrubs that other animals will not eat, only as a last resort, and hence are easily kept. The expense connected with them is in guarding them from wild animals and seeing that they do not range beyond a certain area. Their fleeces bring a good price in the markets and, in the opinion of the owner, the goats are more profitable than sheep, more hardy and less liable to disease. The ewes are very prolific and a herd grows to large proportions. The flesh of the Angora is equally as good as mutton, and very few people can tell the difference between goat meat and that of sheep. A young kid, roasted, is a delicacy that all appreciate.

THE MESA FIRE.

In the process of cleaning clothes with gasoline at the Mesa Cleaning and Dry Works, Saturday, there was an explosion, causing a fire. The establishment is owned by the Lesneur Bros., and Ray Lesneur was engaged in cleaning a woolen shirt for Mrs. T. J. Woods when the explosion occurred. Ray's clothing caught fire, but he gave the alarm, and rushed to an irrigation ditch and extinguished the fire on his own person. He escaped with blistered feet and singed eyebrows. Chief Brackett and the fire company responded promptly to the alarm and within a very short time had two streams of water playing on the fire. The dry works were located in the Vance building, in a room adjoining the Vance barber shop. The partition was knocked out by the explosion, but the barber shop was damaged to a slight extent only. The ceiling was fireproof and the flames were confined to the cleaning room and to the basement under the building. There were many gentlemen's suits and ladies' dresses in the shop at the time, some of which were saved. The loss to the cleaning works will not exceed \$1500, and to the building \$1000, a total of probably \$2400 or \$2500.

It is conceded that the wisdom of the council in placing fire plugs in the center of the blocks and the prompt work of the department saved the south side of Main street from a disastrous fire.

SOCIAL PARTY.

A social party given on the lawn of the home of Mr. and Mrs. Charles Bros, at Gilbert, was attended by a large number of friends and a pleasant time was had. The guests were: Misses Ivy Stahl, Mary Baines, Willa May Sanders, Marie Eldridge, Mary Butler, Iva Ayers, Myrtle Hunsaker, Elizabeth Fuller, Mrs. William Irwin, Messrs. Ray Baines, John Stahl, Ernest Campbell, Lyle Miller, Ivan Hunsaker, James Amos, Louis Bruckman, David Butler and Raymond Houk. Refreshments were served.

WILL MEET AT CHANDLER.

The enterprising members of the Chandler board of trade have invited all the other commercial organizations in the country to meet at the new town on the 29th of June, at 6 o'clock, to help the local board celebrate the completion of its new board of trade building. The Chandler members are hustlers from the word go, and, although the youngest organization in the county, already has a home well under way and by the time of the coming meeting will be at home to its friends. The reason for holding the meeting in the evening is that June 29th in the natural course of valley weather is liable to be a warm day, and the guests will for once at least enjoy the evening shade more than they would the sun's full measure of strength. The Mesa Commercial club members are already planning to take advantage of the invitation in a body and help boost for their neighbors. By the time the meeting takes place, Secretary Estabrook of the Mesa club will have buttons for the general public, reading something like this:

"I WILL CLEAN UP WILL YOU?"

and every man who accepts and wears a button will be expected to keep his own premises clean, and thus set an example to his neighbors.

BIRTHDAY PARTY.

On the occasion of her fifteenth birthday anniversary, Miss Doris Blakely was given a surprise party at her home on East Second avenue. The evening was passed in music and games, and refreshments suitable to the climate were served. The guests consisted of Mr. and Mrs. C. M. Blakely, Mr. and Mrs. Albert Plester, Mr. and Mrs. C. A. Trinkle, Mrs. Robert Kerran, Eleanor and Eleanor Johnson, Miss Josie Trinkle, Gladys and Robert Keeran, Lawrence Blakely.

WILL GO TO PHOENIX.

Constable W. A. Burton will go to

Phoenix this morning with Antone Murrieta in charge. Murrieta is the man who stole Dr. Nelson's overcoat and other articles and a watch from Mrs. Taylor. He was captured at Ray, and brought to Mesa by Mr. Burton. Murrieta does not deny his crime and was held to answer by the Mesa justice of the peace.

DOKEYS.

Tonight will be the big night at K. P. hall, at which time a class of tyros will be fed to the royal Bengal tiger belonging to El Yamamah Temple. There will be a big parade, with fireworks, but no fireworks, and all who care to see the preliminary journey of the victims will have an opportunity. A large number of Phoenix Dokeys will be on hand to take part in the feast.

NEWS IN BRIEF.

Delegates from the Roosevelt supporters and delegates appointed by the central committee left Mesa yesterday afternoon for Tucson to attend the Republican state convention to be held there. Both sides are confident of winning.

All the churches report large congregations yesterday, the day being especially favorable to church going. Mr. and Mrs. W. H. Hogle are preparing for their journey to Oregon and expect to leave this week. Their many friends will report their loss as both are very popular in the Mesa section.

Miss Genevieve Cole came up from Phoenix and spent Sunday with Mrs. Coe.

Mrs. James H. Childs returned Saturday from a visit to her home at Sierra Madre, California, and was accompanied by Miss Vega Brugman. The latter has purchased a forty-acre ranch at Chandler and will make her home in the valley. Miss Brugman has been engaged to teach domestic science in the Mesa high school during the coming school year.

Ripe peaches and rose figs, Mesa product, are now in the local markets. The fig crop is not so large this season as usual on account of the late cold spring weather.

Alfred Pine, the boy recently injured by a horse, was able to be moved from the South Side hospital to his home, Saturday. He is well on the way to complete recovery. Mrs. Sydney Maddox and daughter are here from California, the guests of Mr. and Mrs. J. S. Maddox.

PARMALEE INTENDED TO QUIT THE GAME

His Partner Is Done With It Forever.

[ASSOCIATED PRESS DISPATCH] NORTH YAKIMA, Wash., June 2.—"Both Phil and I had decided we would give up the flying game," declared Cliff Turpin today after he had given over the reins of the accident in which his partner, Phil Parmalee, was killed yesterday. "We had been flying two years and a half, which is longer than most of them stick to it. We intended to fulfill this and two other contracts, then were going back east. We would have taken part in the Chicago meet this fall which was to have been the last. When I think what happened to Phil yesterday I never want to see a flying machine again."

"If he had been higher in the air he could have saved himself. You see, when a machine starts almost straight down, the engine keeps it that way and it takes quite a while to right it, as the planes and rudders, work slowly. If a man is high enough in the air he can do it. The same thing happened to Hoxsey in Los Angeles on New Years day last year. If he had 200 feet more to go, I believe he could have saved himself. The same thing happened Phil."

Turpin will leave here tomorrow for St. Johns, Michigan with the body of Parmalee.

GOOD WORD FOR PHOENIX.

To the Editor of The Republican: Referring to your able article "Let Us Talk Phoenix" I will say it sounds like very good sense and is a valuable suggestion.

You have one of the best sanitary, light and paved cities in the country and when completed it will be a model for cleanliness and by frequently sprinkling will be free from dust. That is the drawback of most cities. You have the best behaved citizens, courteous and polite to strangers and all that come within your gates; a city that has less crime than any other and is kept in perfect order with the least police force; pure air and water. Then why take a long summer vacation where sleep at night is next to impossible crowded in hot stuffy cars and still hotter hotels and expensive rooming apartments.

Why not club together and make a few camping resorts, say a dozen miles out, take your autos in early morning and fill your water bags and lunch baskets, get up a shade tent and on some elevated spot pitch your tent for the day and at evening fold your tent as the Arab of old and return to the city and enjoy a happy, long, undisturbed night's slumber, which only those that have filled their lungs all day with that God given ozone can enjoy. The outfit need not be an expensive affair. As an experiment take four large bed sheets and sew together and join in the center by a foot square of canvas with a small hole for tent poles. This should be say eight feet long, then get four pieces about six feet long for corner posts. The sheets at each corner should have six or eight triangular pieces with holes worked in for cordage to tag posts. If you have a portable or folding table, take it along. Take along a hatchet to drive down the stakes. After your first outing you can improve the defects of your first attempt at camping in the country.

Your good roads are inviting and unexcelled for miles in any direction and there is no reason why these

Letters by Telegraph

How Long Are They?

There are both Day Letters and Night Letters. Each begins with fifty words, but you may make them as long as you please.

Write your letter just as if it were to be sent by mail.

If you wish to reach your correspondent today, send it by telegraph as a Day Letter.

If delivery tomorrow morning will do, send it as a Night Letter.

occasional picnics should not prove a great benefit and enjoyment for many thousands and save great expense and adding to Phoenix in wealth and comfort. ATHELSTAN.

THINGS BOOMING IN ENGLAND

The May Meetings, of Which There Are Many, Show Great Progress.

May meetings in England, which are many, indicate decided improvement in finances. For some years the Church Missionary society representing the evangelists in the Established Church, and ranking one of the two largest missionary societies in the world, has seemed to be on the losing side. Its income fell off and discouragement obtained all along the line. This May, however, receipts are shown to have pulled up again to an even \$2,000,000, the largest in the famous society's history. A debt of only about \$40,000 remains over from the few years of depression.

In its May report the society declares there to be three great tasks before it. These tasks it thinks to be commanding ones. They are the relief of the middle classes in India, the evangelization of pagan tribes in Africa, especially in the Sudan before the forces of Islam claim them, and the educational work in China on Christian and also on adequate lines. For the latter the society favors great universities, supplemented by systems that shall extend to every part of the new republic.

The British and Foreign Bible society, which had also suffered in income during the past three or four years, pulls up again this May and because it does so, and because the Church Missionary society does so, evangelists in England are encouraged beyond any recent period. The Bible society distributed no fewer than 7,394,523 Bibles and New Testaments.
